## Selective abortion blamed for India's 10M missing girls

**INDIAN—ABOUT 10 MILLION GIRLS** around the world may have been affected as India and the rest face demands, according to research published in *Science*.

A study of 100,000 women in India, Pakistan, Bangladesh, and Nepal found that their sons were significantly taller than their daughters. The researchers found that the height difference was most pronounced in India, where the average height difference was 1.5 inches (3.8 centimeters). In Pakistan, the difference was 1.2 inches (3.0 centimeters). In Bangladesh and Nepal, the difference was 1.0 inch (2.5 centimeters).

**IRAC**—A US helicopter crashed in Iraq, killing 12 people on board. The helicopter was on a mission to transport troops to a conflict zone. The crash occurred in a remote area of the country.

# MORE HUMAN CASES IN TURKEY

## Authorities struggle to cope as bird flu threatens Europe

ANKARA, Jan. 18 (AP) — Turkey's health authorities are struggling to cope with a surge in human cases of bird flu, as the disease spreads across the country and threatens to become a major public health problem.

A total of 100 human cases have been reported in Turkey since the first case was diagnosed in late December, according to the health authorities. The number of cases is expected to rise as the virus spreads to other parts of the country. Health officials are working to contain the virus by isolating infected patients and tracing their contacts. They are also conducting extensive testing of poultry flocks across the country to identify and cull infected birds.

# Trader, wife, daughter found dead in Iloilo home

By Phyllis F. Kugel

**Manila** — A man, his wife and their 10-year-old daughter were found dead in their home in Iloilo City, Philippines, on Tuesday, police said. The family was found by neighbors who reported a foul odor from the house. Police found the bodies of the man, 45, the wife, 42, and the daughter, 10, in the living room. The man was found with a gunshot wound to the head. The wife and daughter were found with signs of asphyxiation. The police are investigating the case as a possible homicide.

The bodies were found in the living room of a two-story house. The man was found lying on the floor, his head against a wall. The wife was found sitting on the floor, her head against the same wall. The daughter was found lying on the floor, her head against the wall. The police found a handgun near the man's body. The police are investigating the case as a possible homicide.

Police find the bodies of a man, his wife and their 10-year-old daughter in their home in Iloilo City, Philippines.

## Tanauan folk hold vigil to back mayor

**Manila** — A group of people in Tanauan, Philippines, held a vigil on Tuesday night to show their support for Mayor [Name], who is facing charges of corruption. The vigil was held in a church, and many people lit candles and prayed for the mayor. The mayor is accused of misappropriating funds from the city treasury. The charges were filed by the local prosecutor. The mayor denies the charges and says he is innocent. The vigil is part of a larger campaign to support the mayor and to demand transparency in local government.

## Security tight for Asean meet

**Manila** — Security is tight in Manila for the upcoming meeting of the Association of Southeast Asian Nations (Asean) leaders. The meeting is expected to draw a large number of international media and officials. The Philippine National Police (PNP) has increased its security measures, including patrolling the streets and securing the venues. The meeting is a significant event for the Philippines and the region. It is expected to discuss various issues related to economic cooperation and regional stability.

The diagram illustrates the experimental setup for studying the effect of solution concentration on reaction rate. It features a reaction vessel equipped with a stirrer and a thermometer. The reactant is placed in the vessel, and the catalyst is added to initiate the reaction. The rate of reaction is monitored by measuring the change in reactant concentration over time.

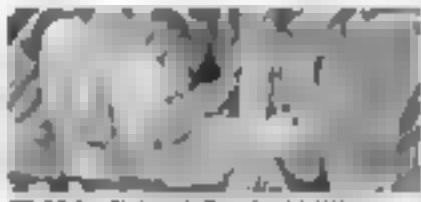

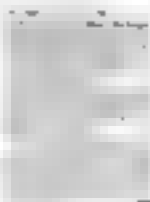

## Carter soars as Nets streak to 10th win

© 1997 by John Wiley & Sons, Inc.

The diagram illustrates the experimental setup for studying the effect of solution concentration on reaction rate. It features a reaction vessel equipped with a stirrer and a thermometer. This vessel is connected to a gas collection system consisting of a gas syringe and a water trough. The gas syringe measures the volume of gas produced, while the water trough collects the gas, displacing water. Labels indicate the reaction vessel, stirrer, thermometer, gas syringe, and water trough.

## EXERCISE OF THE WEEK

### Pilates side leg lift series 3

**Side Pilates Series 3** — This series of exercises focuses on the side of the body, specifically the legs and hips. It is designed to improve balance, flexibility, and core strength.

**Exercise 1:** Lie on your left side, with your knees bent and feet flat on the floor. Lift your right leg up towards the ceiling, keeping it straight. Hold for 10 seconds, then lower it back down. Repeat 10 times.

**Exercise 2:** Lie on your right side, with your knees bent and feet flat on the floor. Lift your left leg up towards the ceiling, keeping it straight. Hold for 10 seconds, then lower it back down. Repeat 10 times.

**Exercise 3:** Lie on your back, with your knees bent and feet flat on the floor. Lift your right leg up towards the ceiling, keeping it straight. Hold for 10 seconds, then lower it back down. Repeat 10 times.

## The truth about infomercial claims

IT'S HARD TO BELIEVE, but the truth is that many infomercials are just plain lies. They claim to have revolutionary new products, but in reality, they are just old products with new packaging.
